G1 Series™ Lubrication Pumps

For Series Progressive Metering Systems

Fits Your Business and Your Budget

Introducing the G1 Standard™ and G1 Plus™ pumps, the newest additions to the G-Series family. A high value solution designed to eliminate manual lubrication maintenance hassles.

PROVEN QUALITY. LEADING TECHNOLOGY.

Built To GRACO Quality Standards

Simple Solution. Sophisticated Results.

Choose the user friendly Graco G1 Pump where you need a reliable, simple alternative to manual lubrication. Work smarter and get better productivity from your equipment and maintenance staff with G1 Series lubrication pumps.

Choices that Fit

Choice of 2, 4, or 8 liter reservoirs for oil or grease. Size to match your system needs.

Built-in Versatility

Available with stirring paddle and wiper arm to keep material from separating. Optional follower plate ensures grease stays level for extreme angle installations.

Hard Working Pump

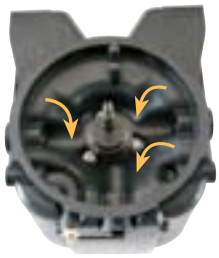
G1 comes with one pump element installed that reliably delivers lubricant when you need it.

Easy to Connect

Connect to DC (12 or 24v) and AC (90-240v) power sources with CPC or DIN-style connectors for easy, no hassle installations.

Management Choices

G1 Standard™ has no internal controller for a low cost solution. G1 Plus™ has built-in on/off timer with optional low level feature that shuts down the pump when empty. Manual run initiates lube cycles on-demand with the option for remote control.



Achieve Uninterrupted Material Flow

With its advanced flow dynamics the contoured base flows lubricants directly to the pump inlet, significantly reducing stagnant areas where grease can separate.

Experience Our Long Life Design

Engineered offset drive design minimizes load and stress on the motor and pump element.
